

Brand-name umbrellas & accessories

2024 Catalogue

Make your

SUMMER

even better

Your competent & reliable partner

Outstanding quality, fair prices

The brand "Schneider Schirme" embodies carefully selected materials and an attractive design. These characteristics ensure that our products will always operate flawlessly. Various institutions have consistently attested to this quality over the years.

More than 150 years of experience

Established in 1868, our company is owned and operated in the 5th generation and has always managed to adapt to the needs of the times. This know-how and experience have made us one of the market leaders in Europe.

Annex building adding 6,000 sqm of space to the company headquarters in Mengen - occupied since February of 2022

Eye-catching displays at the POS

With sales displays for sun umbrellas, shade sails, accessories and umbrella stands, we support retailers in their presentation of our products at the point of sale.

Complete line for every need

Whether you need standard, large, restaurant or professional umbrellas, in small or large quantities, single-colour or printed, Schneider Umbrellas is your ideal partner.

Rooted in the region, connected world-wide

Investments in our production and storage facilities in the south of Germany and the expansion of international relations are key contributors to our success and guarantee optimal merchandise supply. The commitment to our home location, quality and customer proximity is as strong as ever.

Effective UV protection

Since responsible protection against UV radiation has been a great concern of ours from the start, all of our umbrellas are always certified in accordance with international standards.

For more than 150 years

Completion of the annex building **2022**

2011 Expansion by high-bay warehouses 1 & 2
+ 2014

Expansion and simultaneous move of production and administration to Oberschring in Mengen **2005**

1995 Representing the family's *fifth* generation, Rolf Guffarth joins the company as its Managing Director

Expansion in Mengen's industrial park **1973**

1969 Release of the first catalogue of garden umbrella products

Garden umbrellas are produced for the first time **1967**

1868 Company founded as a factory for rain umbrellas

Premium protective sleeves

PREMIUM protective sleeves

High-quality protective umbrella sleeves for your PREMIUM umbrellas. Made of durable, waterproof and light-proof special polyester fabric. The drawstring features a stopper for closing the protective sleeve at the bottom to prevent insects and mice from building nests (except 321-00).

The sizes for 300 cm Ø and larger also feature a zip and telescoping rod for convenient covering of the closed umbrella, without having to remove it from the umbrella stand.

Sizes 400 cm Ø and larger also come with an air vent for improved air circulation.

Packaged in a sturdy zip bag with a carrying strap, which can also be used for storage.

Packaging unit: 6 items

145 x 20/25 cm	321-00	for umbrellas up to 200 cm Ø and 225 x 120 cm	
183 x 25/35 cm	322-00	for umbrellas up to 300 cm Ø, with zip and rod	
250 x 27/45 cm	323-00	for umbrellas up to 400 cm Ø and 300 x 300 cm, with zip, rod and air vent	
240 x 57 cm	324-00	for hanging umbrellas up to 400 cm Ø and 300 x 300 cm and 350 x 260 cm, with zip, rod and air vent	

NEW in the Classics segment:

Schneider umbrellas fulfil stringent requirements at reasonable prices. Tested materials and standardised manufacturing processes guarantee consistent quality – and the customer is grateful for that!

SCHNEIDER
SUNNY

The sunny line of umbrellas is ideal for advertising campaigns, supplements or secondary placement. EU and Asian imports, stringently tested in accordance with Schneider quality standards, guarantee functional and durable umbrellas.

The “sunny” sales display

allows the orderly display of the sunny products on page 56 – 58 – just where you need it: with the product assortment, as a secondary display or at the point of sale.

The display is delivered empty and must be assembled!

Universal mounts

Installation on one of the mounts requires that the rotary plate (see detail images) be directly screwed onto the selected mount using the screws (M8x20) that have been included with the umbrella.

There is therefore no need for the cross base. You can store the base and use it as needed if you change locations temporarily.

The elimination of the cross base reduces the overall height of the umbrella by about 5 cm.

Our tip: Before you use one of the mounts listed, we recommend that you first use the umbrella with the included cross base for a few weeks in order to determine the ideal location for your umbrella.

- Suitable for**
- Monaco 3 x 3 m
 - Bermuda
 - Rhodos Junior series
 - Rhodos Grande
(universal ground plate + universal wall console only)
 - Rhodos Twist series
 - Rhodos
 - Rhodos Blacklight
 - Rhodos Rondo
 - Rhodos Smart
 - Genua
 - Pole for shade sail
(except universal ground stake)

Hole pattern:
Dimensions in mm

Universal wall console

For installation on walls, hot galvanised, mounting plate ca. 20 x 16 cm, great stability, space-saving installation option, size: 21 x 16 x 16 cm

Suitable for the umbrellas listed above, depending on the height of the wall and the fastening point of the universal wall console.

Art. no. 897-60

Universal ground plate

To be set in concrete

to be set in concrete,
hot galvanised,
mounting plate ca. 16 x 16 cm,
total height ca. 40 cm

Minimum dimensions for the concrete foundation:

Art. no. 897-00

Universal ground anchor

For anchoring in the ground

For anchoring in the ground*
or setting in concrete,
hot galvanised,
mounting plate ca. 16 x 16 cm,
total height ca. 45 cm

Minimum dimensions for the concrete foundation:

* Only in undisturbed topsoil!
Not suitable for sandy or stony soils!

Art. no. 897-50

Universal ground stake

For anchoring

For anchoring, hot galvanised,
mounting plate ca. 16 x 16 cm,
total height ca. 55 cm,
anchoring tool included

Art. no. 897-55

Hanging umbrella wind stabiliser

This wind stabiliser made of robust, black polyester straps reduces unsteadiness of the umbrella caused by wind and therefore also the strain on the umbrella frame. It can be mounted on all hanging umbrellas with a locking screw on the lower part of the pole and a maximum pole circumference of 260 mm, without the use of tools.

IMPORTANT:

The hanging umbrella wind stabiliser does **not** increase the stability of the hanging umbrella. The stability depends primarily on the weight and the size of the umbrella stand that is used! The wind stabiliser only reduces the movement of the canopy and the strain on the umbrella frame. The hanging umbrella should always be closed in windy conditions.

Suitable for the following hanging umbrellas:

- Monaco 3 x 3 m • Bermuda
- Rhodos Grande • Rhodos Twist series
- Rhodos • Rhodos Blacklight • Rhodos Rondo
- Rhodos Smart

Scope of delivery:

- 1x pole fastener
- 2x brace fasteners
- 2x tie-down straps

Art. no. 313-00

Packaging unit: 6 items

Slabs for hanging umbrellas

Slabs suitable for cross bases of hanging umbrellas. For filling with water from the side. Filled 100 kg and therefore suitable for hanging umbrellas. Walkable! The interlocking design creates a continuously connected unit. Overall height of the umbrella is about 5cm higher.

Suitable for our umbrellas:

- Monaco 3 x 3 m • Bermuda • Rhodos Junior series
- Rhodos Twist-Serie • Rhodos • Rhodos Blacklight
- Rhodos Rondo • Genua

1 set consists of 4 elements.
Total size ca. 111 x 111 x 12 cm
Empty weight: ca. 12 kg/set
